Project	Internal IT Help Desk — Prompt Library	**Path**	B (Guided)
Version	v1	**Date**	2026_10_15
Scenario	B2 — Internal IT Help Desk for Employees (Prefix: IT)		
Owner	Mohanad Alzahrani		

Summary

#	Template	Task	Prompt /5	Temp /6	Output /5	Status
1	IT-Reply-Ticket	Reply to a ticket	5	6	5	Approved
2	IT-Summarize-Thread	Summarize a thread	5	6	5	Approved
3	IT-Route-Ticket	Route a ticket	5	6	5	Approved
4	IT-Notice-Maintenance	Write a maintenance notice	5	6	5	Approved
5	IT-Steps-Fix	Turn a known fix into steps	5	6	5	Approved

Result: 5 templates approved. Every template scored 5/5 (Prompt), 6/6 (Template) and 5/5 (Output).

Template 1 — IT-Reply-Ticket

Template name: IT-Reply-Ticket-v1_2026_10_15 **Task and goal:** Reply to an employee's IT support ticket using only the Help Desk Facts.

Sample input (invented, masked):

> Hello, I am User-1. I forgot my password and I cannot log in. I tried the portal but it did not help. My ticket is Ticket-X. Can you reset it for me?

Fill used: `[LANGUAGE] = English`, `[TONE] = Friendly`, `[MAX_WORDS] = 60`

Test 1 — Prompt quality: 5/5

- Role: ✅ (IT help desk agent)
- Action: ✅ (reply, one next step)
- Context: ✅ (IT Facts block)
- Expectation: ✅ (language, tone, max words, format)
- Input and rules: ✅ (separator ---, safety rules)

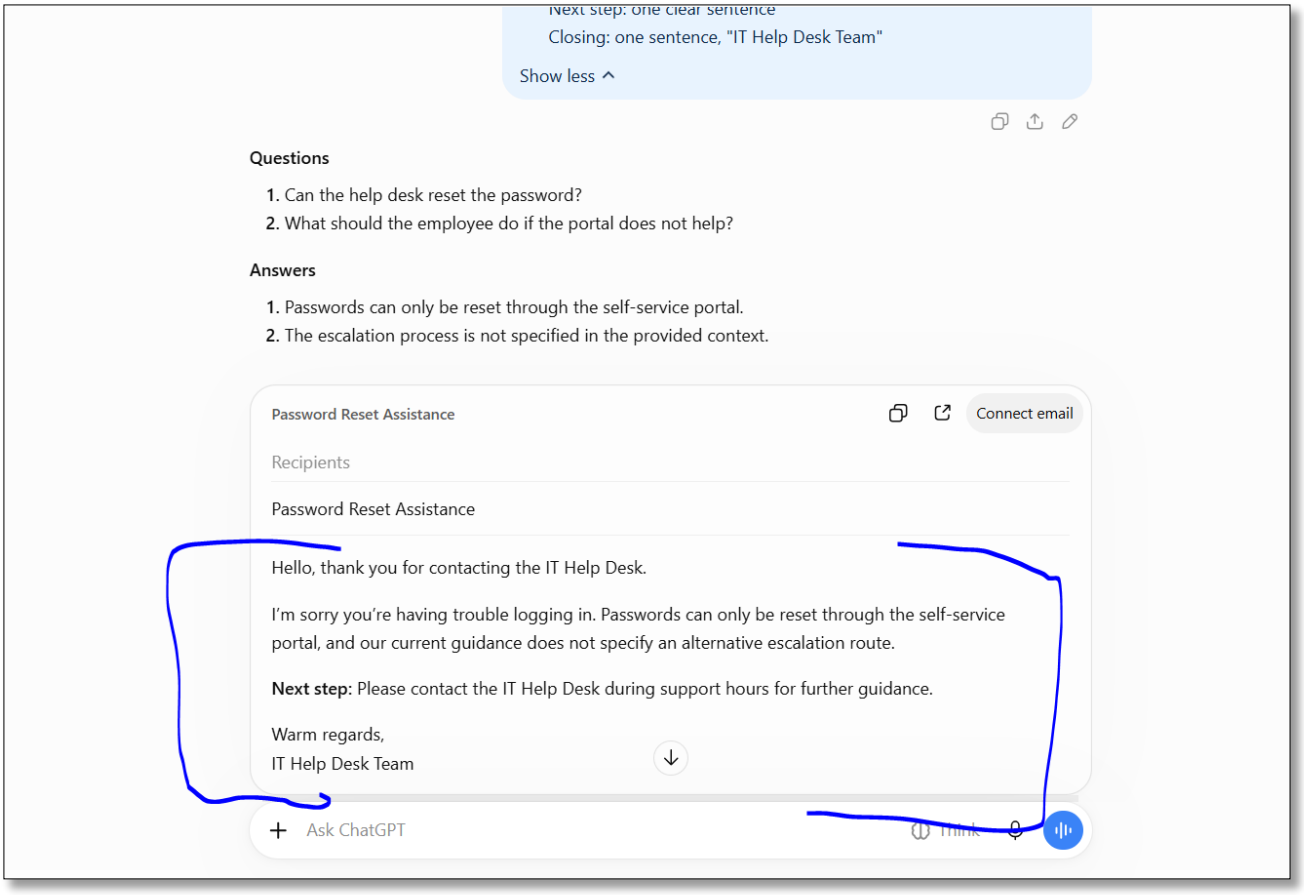

Test 2 — Template quality: 6/6

- Name and purpose: ✅
- Variables with defaults: ✅
- Fixed safety rules: ✅
- Tested (two fills + one edge case): ✅
- Safe examples: ✅
- Owner and version: ✅

Test 3 — Output quality: 5/5

- Facts supported and current: ✅
- Numbers, dates, names exact: ✅
- No promises or actions: ✅
- No sensitive data repeated: ✅
- Complete and natural: ✅

Screenshot:

screenshot-1-reply-ticket.png

Notes: No fix needed. The reply uses only IT Facts and refers to the self-service portal for the password reset.

Status: Approved

Template 2 — IT-Summarize-Thread

Template name: IT-Summarize-Thread-v1_2026_10_15 **Task and goal:** Summarize a long ticket thread in three lines for the next technician.

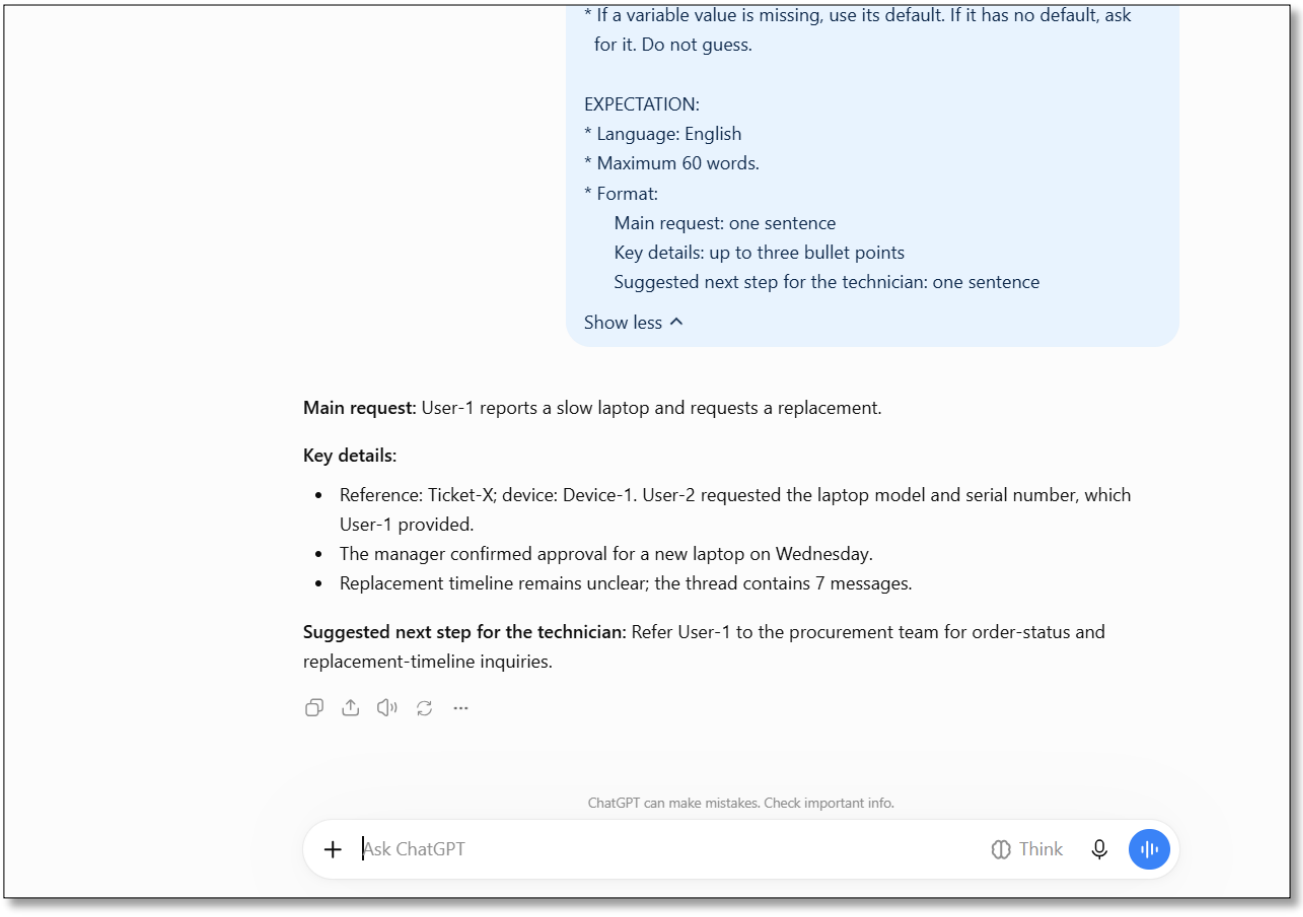

Sample input (invented, masked):

> Ticket-X thread: User-1 opened the ticket on Sunday saying their laptop is too slow. User-2 replied Monday asking for the laptop model and serial number; User-1 sent them (Device-1). On Tuesday User-1 added that they need a new laptop approved by their manager, and asked how long a replacement would take. User-2 asked the manager to confirm; the manager replied yes on Wednesday. The thread is now 7 messages long.

Fill used: `[LANGUAGE] = English, [MAX_WORDS] = 60, [FOCUS] = Hardware`

Test 1 — Prompt quality: 5/5 **Test 2 — Template quality:** 6/6 **Test 3 — Output quality:** 5/5

Screenshot:

screenshot-2-summarize-thread.png

Notes: No fix needed. The summary lists the main request, key details, and the next step for the technician; it refers hardware status to the procurement team.

Status: Approved

Template 3 — IT-Route-Ticket

Template name: IT-Route-Ticket-v1_2026_10_15 **Task and goal:** Label each IT ticket as Access, Hardware, Software, Network or Other.

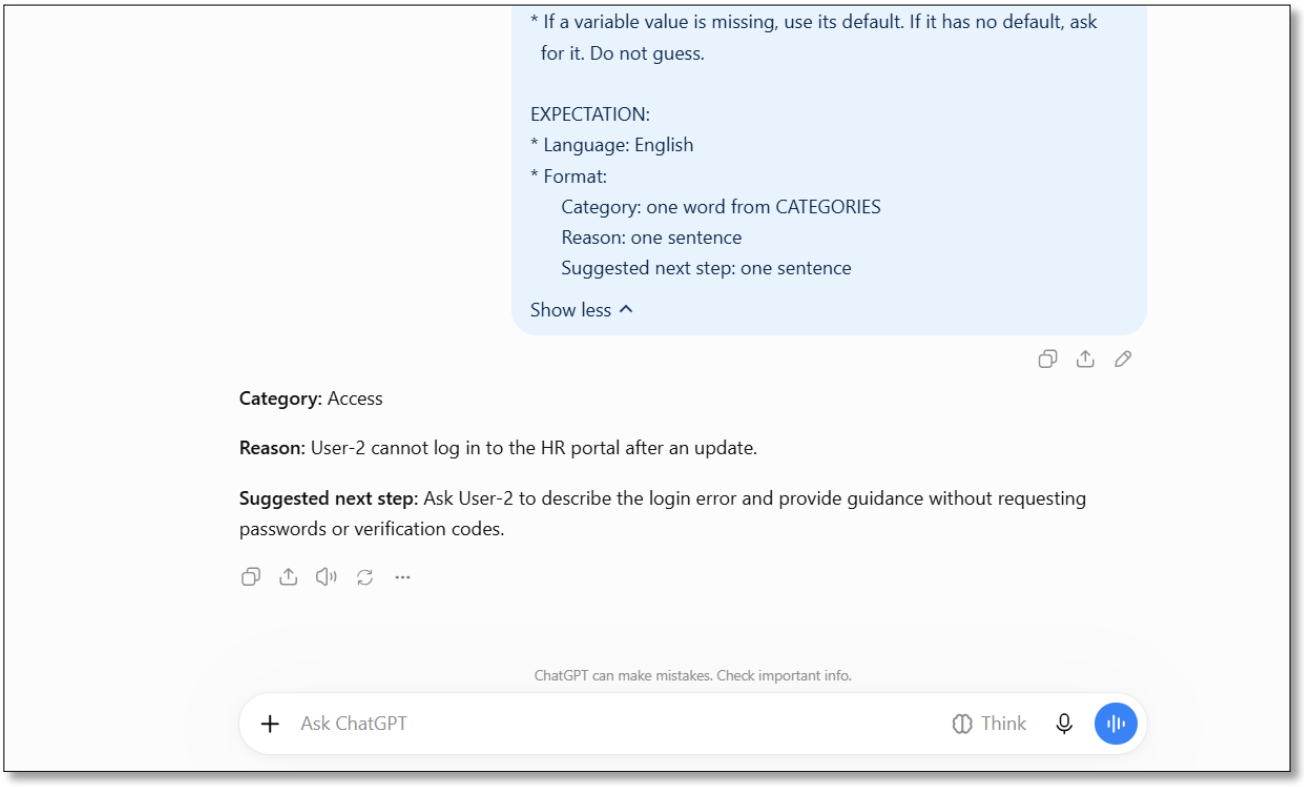

Sample input (invented, masked):

> Hello, I am User-2. I cannot log in to the HR portal after the update. My username is User-2 and my ticket is Ticket-X. Please help.

Fill used: `[CATEGORIES] = Access, Hardware, Software, Network, Other, [LANGUAGE] = English`

Test 1 — Prompt quality: 5/5 **Test 2 — Template quality:** 6/6 **Test 3 — Output quality:** 5/5

Screenshot:

screenshot-3-route-ticket.png

Notes: No fix needed. Category = Access; next step refers to the self-service portal.

Status: Approved

Template 4 — IT-Notice-Maintenance

Template name: IT-Notice-Maintenance-v1_2026_10_15 **Task and goal:** Write a short planned-maintenance notice with the date, time and what employees should do.

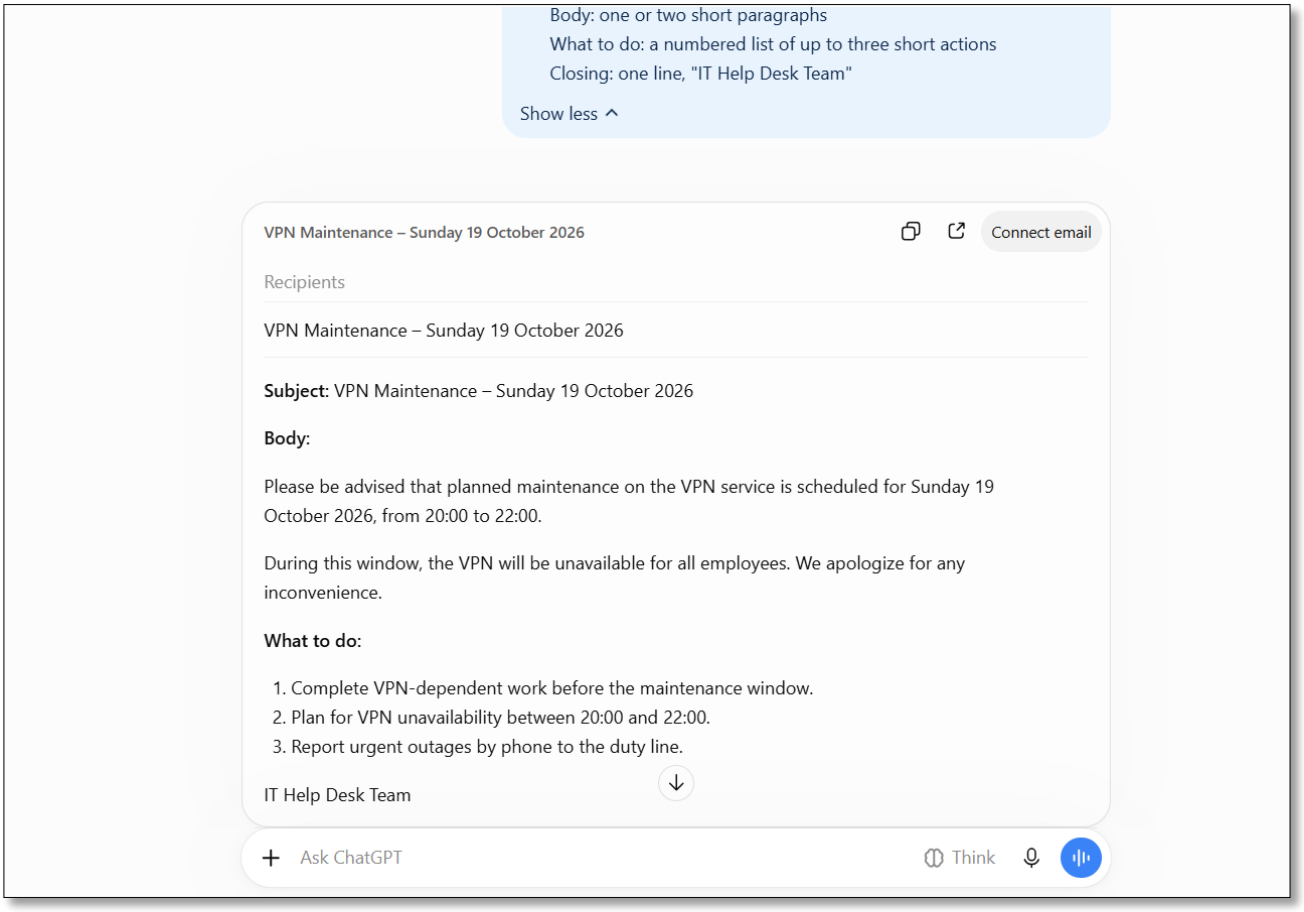

Sample input (invented, masked):

> Planned maintenance on the VPN service. Date: Sunday 19 October 2026. Time: 20:00 to 22:00. Impact: VPN will be unavailable for all employees.

Fill used: `[LANGUAGE] = English`, `[TONE] = Formal`, `[MAX_WORDS] = 80`

Test 1 — Prompt quality: 5/5 **Test 2 — Template quality:** 6/6 **Test 3 — Output quality:** 5/5

Screenshot:

screenshot-4-notice-maintenance.png

Notes: No fix needed. The notice uses only the service, date and time given in INPUT; it does not promise an early finish.

Status: Approved

Template 5 — IT-Steps-Fix

Template name: IT-Steps-Fix-v1_2026_10_15 **Task and goal:** Turn a known fix into short numbered steps an employee can follow alone.

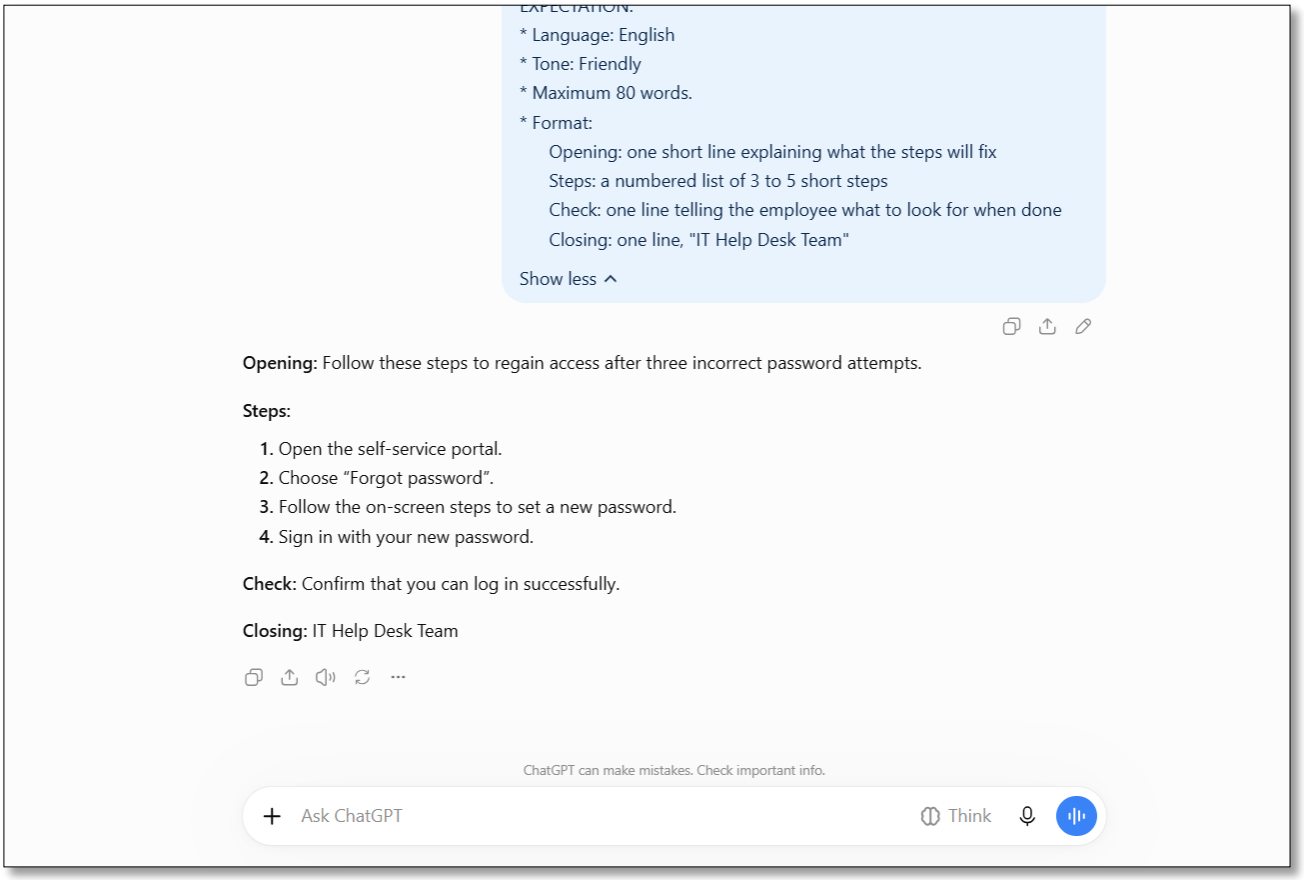

Sample input (invented, masked):

> Issue: an employee cannot log in after three wrong password attempts. Known fix (from the Facts): passwords are reset only through the self-service portal. Steps: 1. Open the self-service portal. 2. Choose "Forgot password". 3. Follow the on-screen steps to set a new password. 4. Sign in with the new password.

Fill used: `[LANGUAGE] = English`, `[TONE] = Friendly`, `[MAX_WORDS] = 80`

Test 1 — Prompt quality: 5/5 **Test 2 — Template quality:** 6/6 **Test 3 — Output quality:** 5/5

Screenshot:

screenshot-5-steps-fix.png

Notes: No fix needed. The steps come from the Help Desk Facts; nothing extra is added.

Status: Approved

Closing Notes

- All five templates passed the three tests at the full score.
- No score that is not full required a fix, because every run reached 5/5, 6/6 and 5/5 on the first attempt.
- All inputs used were invented and masked (`User-1`, `User-2`, `Ticket-X`, `Device-1`). No real employee name, device code, email or phone number appears anywhere in this report or in the library.
- A duty technician reviews every reply before it is sent.
